PICTORIAL HISTORY

## THE UNITED STATES,

FROM the discovery of America by the Northmen to the present time.—By Jonn Froot, Professor of Belles Lettres of the High School of Philadelphia.—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers: and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment of scatic her been required.

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the con clusion of each volume, a complete index and title

The publisher pledges himself that the embellish-neats in the whole work shall exceed three hundred, ments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible of rich pictorial embellishments than others. The succeeding parts will contain the same number of pages as this. Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage, (Postmusters) franks can always be obtained for remittances for periodicals.) and the whole will be sent. masters' franks can always be obtained for remittances for periodicals,) and the whole will be sent.—
Clubs, by a remittance of ten dollars, will receive three copies; by a remittance of fitteen, five copies.
Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application.

Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of them is more satisfactory than a column of certificates.

THE GREAT OBJECT GAINED! Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular till they have produced preparations in the popular form of Lozenges for nearly every disease incident to

WORM LOZENGES.

others.

WORM LOZENGES.

Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

It is estimated that, in the United States, 100,000 children die yearly from the effect of worms alone. This wast mortality can be almost entirely prevented by the use of Peters' oclebrated Lozenges. Thousands and tens of thousands pine away and die without suspecting the real disease. The following are a few of the symptoms: headache, pale lips, flushed cheeks, disturbed dreams, feverishness, thirst, bad postrels, hay in the stomach or influse, sense of something rising in the chest, &c.

"This. Catharine Ann Briggs, Cherry street, Philadelphia, has a little daughter who had been in a decline for several years. At times she would eat voraciously, and sometimes eat nothing at all; and she was last wasting away. Her symptoms were so unusual and contradictory that the doctors knew not what to do; but do what they would she continually grew worse, and reluctantly they declared she must die. At the request of a friend, the mother at this stage procured a box of Peters' Worm Lozenges. The first dose satisfied all that worms was the cause of all the child's sufferings, and two boxes effected a perfect cure.

Mr. J. W. Carpenter, merchant, Roosevelt street,

Mr. J. W. Carpenter, merchant, Roosevelt street Mr. J. W. Carpenter, merchant, Roosevelt street, New York, says. Dr. Peters' worm lozenges possess more merit than the Doctor claims for them. He has used them in his family with success when every other medicine failed. Wherever they have been used, they are preferred to all other remedies. In fact Dr. Peters and his distinguished associates, possessing many receipts of great value, selected from each the most valuable

Stages and steamboats run every half hour to and from Troy and Albany, and to suit the arrival and departure of the cars.

Passengers going north of the Springs, will find stages to convey them to Lake George, Whitehall, and intermediate places, connecting with all the principal Northern and Eastern routes. Either of the runs will take passengers in time to reach the Lake Champlain boat.

The arrangement between Whitehall and Saratoga is new, and much more pleasant and expeditious than heretofore. It is by stages to Dunham's Basin, near Sandy Hill, and thence in packet boat to Whitehall thus avoiding the rough part of the road.

Returning—leave Whitehall on arrival of Champlain boat, by packet boat to Dunham's Basin, and thence to Saratoga in stages, to arrive in time for the cars.

It FA stage leaves. Saratoga, daily, at 5 olders.

(VICERO'S, CRATTLES)

The Redford and Saranac Crown Window Glass are distinguished from ordinary Glass by the uncommon evenness and beauty of surface, the superior transparency and lightness of color, the great thickness, and the general excellence of the materials which compose them. The surface not being polished after being blown, retains the onamel, brilliancy, and hardness, and is not subject to the objection so often applied to Plate Glass, of being easily defaced and permanently bedimmed by dust; being made of extra thickness, will, without injury, withattand viclent winds, hail storms, jars of cannon, &c. Its use, in the end, will prove more economical, independent of its adding so much to the beautiful appearance of buildings.

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House, Howard's Hotel, Bronson's Buildings, Broadway, Centre Market, and a great many private residences and stores in various parts of the city; also, in the Exchange and Custom House, Boston; Girard College, Philadelphia; Exchange Hotel, Baltimore; in the public buildings at Washington city; the Capitol at Raleigh, North Carolina, and in many both public and private edifices throughout the United States. It has been used in a great number of stemboats and railroad cars, and given entire satisfaction. It is be ieved that the above will suffice to not that this Glass stands presuminant, and that it deservedly merits the approbation of builders and consumers of Glass.

The Saranac Crown Glass is most used in sicres deservedly merits the approbation of builders and consumers of Glasz.

The Saranac Crown Glass is most used in stores and buildings of the second order, green houses, &c. where strength and clearness are particularly desired, and will range about 334d per cent. cheaper than Redford.

The double thickness is always used for lighthouses, and is taken by the true economist for sky lights, steamboats, ships' cabin windows, &c.

Ground Glass for sky lights, churches, and artists' windows, furnished to any pattern or size. The Glass is carefully packed in stout boxes, nailed, and secured so as to be transported with safety to any part of the United States.
